profile.html

The screenshot shows a profile page with the following structure:

- Header:** 'My Profile'
- Navigation:** Profile, Personal, Family, Hobbies, Friends
- Section 1:** **About Myself**
 - I am a passionate and determined student pursuing a Bachelor's Degree in Informatics Engineering (D4) at Politeknik Negeri Jakarta, driven by my long-standing fascination with programming and problem-solving. My journey into tech began in junior high school, where I first discovered the thrill of creating solutions through code. This interest led me to specialize in Computer and Network Engineering (TK) during vocational high school (SMK), where I graduated in 2023.
 - After not passing the UTBK exam that year, I made the deliberate decision to take a gap year to refine my skills and reattempt the test. That year of focused self-study not only strengthened my academic foundation but also reaffirmed my commitment to a career in technology. In 2024, my perseverance paid off when I secured admission to Politeknik Negeri Jakarta's Informatics Engineering program—a pivotal step toward my goal of becoming a skilled software developer.
 - I thrive on challenges that blend logic and creativity, whether it's debugging code, designing efficient systems, or collaborating on projects. Beyond academics, I actively explore emerging technologies and contribute to open-source communities to expand my practical knowledge. When I'm not coding, you'll find me tinkering with hardware, reading about tech trends, or mentoring peers who share my enthusiasm for programming.

                        discovered the thrill of creating solutions through
                        code. This interest led me to specialize in

to refine my skills and reattempt the test. That year of focused self-study not only strengthened my academic foundation but also reaffirmed my commitment to a career in technology. In 2024, my perseverance paid off when I secured admission to Politeknik Negeri Jakarta's Informatics Engineering program—a pivotal step toward my goal of becoming a skilled software developer.

I thrive on challenges that blend logic and creativity, whether it's debugging code, designing efficient systems, or collaborating on projects. Beyond academics, I actively explore emerging technologies and contribute to open-source communities to expand my practical knowledge. When I'm not coding, you'll find me tinkering with hardware, reading about tech trends, or mentoring peers who share my enthusiasm for programming.

Penjelasan

Halaman profile.html berisi tentang penjelasan tentang siapa pembuat website dan cerita tentangnya. Mulai dari cerita tentang kenapa sang pembuat website bisa menyukai dunia programming hingga cerita tentang bagaimana ia ditolak ketika mencoba UTBK untuk pertama kalinya. Pada halaman ini juga terdapat footer yang isinya sama seperti halaman sebelumnya. Halaman ini juga sudah mendukung fitur responsive sehingga dapat dibuka di layar yang lebih kecil.

personal.html

The screenshot shows a user profile page. At the top, there's a navigation bar with 'My Profile' and links for Profile, Personal, Family, Hobbies, and Friends. Below the header is a section titled 'Personal Information' with three main categories: 'Basic Info', 'Education', and 'Skills'. 'Basic Info' includes a full name, birthdate, location, and phone number. 'Education' lists current studies in Informatics Engineering and previous studies in Vocational High School. 'Skills' include UI/UX Design and HTML/CSS. Further down, there's a 'Languages' section listing Indonesian and English. The footer contains a bio about the user being curious and loving to learn, followed by quick links to Profile, Personal Info, Family, and Hobbies, and a contact section with address, email, and phone number. Social media icons for LinkedIn and GitHub are also present.

My Friends

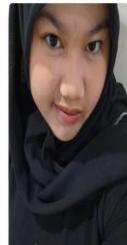

Jasmine Aleena Wafa

My encounter with her started in junior high school. However, I only got to know her in 2021 which started with playing games together. Since then, we've become pretty close friends.

Putra Al Fauzan

I met him in 12th grade. At first we just chatted, then we became closer and got closer when we played games together and chatted online on discord.

Muhammad Kemal Azima Widodo

Just like Fauzan, he is also a friend I met in 12th grade. We often play games together and walk together when at school. That's what made us close until now. I first met her on discord. At that time I was chatting on a discord server belonging to one of my online friends. Since then, we often chatted together into the right on discord. Although she lives in Malang, we have met several times.
